

LIVINGSTONE DISPOSABLE CARDBOARD SPACER

Unique Patented Design

- Dual-valve holding chamber Used for effective administration of aerosol medication when managing asthma
- Clear-view window monitors delivery of medication
- Pop-up design - Pop open and go, no assembly required, created for your convenience
- Lightweight and foldable packaging to easily store in any bag or first aid kit
- Less expensive than traditional plastic spacers
- Individually packed to avoid cross contamination
- Single patient use, dispose after 7 days

Total amount of drug and respirable dosage emitted from Livingstone Disposable Cardboard Spacer is significantly higher compared to the next leading brand
