SAFETY DATA SHEET

Product Code: APRHD84X123

PAGE 1 OF 3

SECTION 1 PRODUCT IDENTIFICATION

Product Name: Liv Disposable Aprons
Chemical Name: Polyethylene (polyethylene) homo_polymer

SECTION 2 HAZARD IDENTIFICATION

Components of this product are not hazardous under OSHA Hazard Communication (29 CFR 1910, 1200)

SECTION 3 COMPOSITION/INFORMATION ON INGREDIENTS

Chemical Ingredient	CAS Number	Notes
Ethylene	74-85-1	This material is stabilized
Polyolefin	9002-88-4	

SECTION 4 FIRST AID MEASURES

Eye Contact: Flush eyes with water irritation occurs
Skin Contact: If contact with molten product occurs, treat as thermal burn
Ingestion: Not ordinarily required
Inhalation: Not ordinarily required

SECTION 5 FIRE FIGHTING MEASURES

Extinguishing Media: Use water fog, dry chemical or CO₂.
Special Protective Equipment for Fire Fighters: Material will not burn unless preheated. Do not enter fire space without full bunker gear (helmet with face shield, bunker coats, gloves and rubber boots) including a positive pressure NIOSH* approved self-contained breathing apparatus. Cool fire exposed containers with water.
Unusual Fire and Explosion Hazard: Treat as a solid that can be burn. Avoid accumulation and dispersion of dust to reduce explosion potential

SECTION 6 ACCIDENTAL RELEASE MEASURES

Methods for Cleaning Up: Shovel sweep or use industrial vacuum cleaner. Avoid generating dust clouds. Put into containers for reclaiming or disposal as permitted by applicable of this material, the user should determine if the release is reportable under applicable laws and regulations

SECTION 7 HANDLING AND STORAGE

Storage: Store away from oxidizing materials, in a cool, dry place with adequate ventilation and absence of direct sunlight

Information provided on this document is presented in good faith and believed to be correct based on the best data currently available, Livingstone International makes no representations or warranties, expressed or implied as to the completeness or accuracy of the information. In no event will Livingstone International be liable for any errors or omissions in the information provided herein. Information is supplied upon the condition that any persons or corporate receiving same will make independent determination as to its suitability for their own purposes prior to use, and in no event will Livingstone International be responsible for damages of any nature whatsoever resulting from the use of product or reliance upon information provided. Information is provided on an "as is" basis, no representation or warranties, either expressed or implied of fitness for a particular purpose or of any other nature are made herein with respect to information of the product.

SAFETY DATA SHEET

Product Code: APRHD84X123

PAGE 2 OF 3

Treat as solid that can burn

Avoid breathing dusts and process fumes. Avoid accumulation and dispersion of dust to reduce explosion potential. Adequate ventilation and/or engineering controls must be employed in high temperature processing to prevent exposure to potentially fly toxic/irritating fumes. Equipment must be earthed to avoid static electric charge.

SECTION 8 EXPOSURE CONTROLS/PERSONAL PROTECTION

Respiratory Protection:	Not ordinarily required, (OSHA* has established transitional occupational exposure limits for the product and/or components for this product. Refer to 29 CFR 1910. 1000 for these transitional limits and requirements for meeting these limits.)
Protective clothing	Additional Protective
Measures	Adequate ventilation and/ or engineering controls are required when product is heated in processing to prevent exposure to potentially toxic, irritating fumes.

SECTION 9 PHYSICAL/CHEMICAL PROPERTIES

Boiling Point	Not Applicable
Solubility in Water	Insoluble
Melting Point	100 - 115 °C
Vapour Pressure	Not Applicable
Flash Point	Not Applicable
Relative Density	0.917 - 0.925
Odour	Negligible Odour
Percent Volatile by Volume	Nil
Appearance	Solid Translucent
Auto Ignition	Granules
Temperature	350 °C (ASTMD1929)
Flammability	Flammable

SECTION 10 STABILITY AND REACTIVITY

Stability	Stable
Hazardous Polymerization	Will not occur
Materials to avoid	Strong Oxidizing Agents
Conditions to avoid	Temperature above 250 °C
Hazardous Decomposition Products	At processing temperature, some degree of thermal degradation will occur, Although highly dependant, on temperature and environmental conditions, a variety of decomposition products may be present ranging from simple hydrocarbons (methan and propane) to toxic/irritating gases such as carbon monoxide & dioxide, aldehydes and other organic vapors.

Information provided on this document is presented in good faith and believed to be correct based on the best data currently available, Livingstone International makes no representations or warranties, expressed or implied as to the completeness or accuracy of the information. In no event will Livingstone International be liable for any errors or omissions in the information provided herein. Information is supplied upon the condition that any persons or corporate receiving same will make independent determination as to its suitability for their own purposes prior to use, and in no event will Livingstone International be responsible for damages of any nature whatsoever resulting from the use of product or reliance upon information provided. Information is provided on an "as is" basis, no representation or warranties, either expressed or implied of fitness for a particular purpose or of any other nature are made herein with respect to information of the product.

SAFETY DATA SHEET

Product Code: APRHD84X123

PAGE 3 OF 3

SECTION 11 TOXICOLOGICAL INFORMATION

The product is non-toxic by composition. However, it should be treated as nuisance particulates, avoiding breathing dust or any fumes that may be generated during its processing. A knowledge of available toxicology information and of the physical and chemical properties of this material suggests that over-exposure is unlikely to aggravate existing medical conditions.

SECTION 12 ECOLOGICAL INFORMATION

The material is not biodegradable. It can be recycled using suitable technology. It doesn't contain additive compounds of lead, cadmium and chromium. Disposal must be done in accordance with existing regulations. Land filling and incineration can be considered in most cases.

SECTION 13 DISPOSAL CONSIDERATIONS

All waste material should be packaged, labeled, transported and disposed or reclaimed in conformance with good engineering practices. Reclaim when possible.

SECTION 14 TRANSPORT INFORMATION

Department of Transportation Classification; Not hazardous by DOT* Regulations.

SECTION 15 REGULATORY INFORMATION

OSHA	Occupational Safety and Health Administration
ACGIH	American Conference of Governmental Indust
NIOSH	National Institute of Occupational Safety and Health
DOT	Department of Transportation

SECTION 16 OTHER INFORMATION

Reason for revision: To bring to date
