FIRE	1
REACTIVITY	0
PERSONAL PROTECTION	0

Product Code: BD328821

PAGE 1 OF 9

SECTION 1 PRODUCT IDENTIFICATION

Product Name BD Ultra-Fine Insulin Syringes, 0.5ml, with Needle,
Recommended Use A medical device that is used to inject fluid into, or withdraw fluid from, the body.

SECTION 2 HAZARD IDENTIFICATION

Barrel Part of Syringe

GHS Classification No data available. This material is not classified as hazardous under the Article 39 Paragraph 1 of the Industrial Safety and Health Act (ISHA). It is not regulated for the SDS creation and labeling by the provision of Article 41 Paragraph 1 of the ISHA.

GHS Label Element This material is not classified as hazardous under the Article 39 Paragraph 1 of the Industrial Safety and Health Act (ISHA). It is not regulated for the SDS creation and labeling by the provision of Article 41 Paragraph 1 of the ISHA.

Other hazards which do not result in classification

No information available.

Plunger Part of Syringe

Hazard Classification None

GHS Label Elements

Symbols Non needed according to GHS classification criteria.

Signal Word Non needed according to GHS classification criteria.

Hazard Statements Non needed according to GHS classification criteria.

Other hazards which do not result in classification

NFPA Health = 1, Flammability = 1, Reactivity = 0

SECTION 3 COMPOSITION/INFORMATION ON INGREDIENTS

Barrel Part of Syringe

Chemical Name	Common Name	CAS-No.
Polypropylene	Polypropylene	9003-07-0

Plunger Part of Syringe

Chemical Name	Common Name	CAS-No.
Polypropylene	1-Propene, Homopolymer	9003-07-0
Additives	-	-

Information provided on this document is presented in good faith and believed to be correct based on the best data currently available, Livingstone International makes no representations or warranties, expressed or implied as to the completeness or accuracy of the information. In no event will Livingstone International be liable for any errors or omissions in the information provided herein. Information is supplied upon the condition that any persons or corporate receiving same will make independent determination as to its suitability for their own purposes prior to use, and in no event will Livingstone International be responsible for damages of any nature whatsoever resulting from the use of product or reliance upon information provided. Information is provided on an "as is" basis, no representation or warranties, either expressed or implied of fitness for a particular purpose or of any other nature are made herein with respect to information of the product.

SECTION 4 FIRST AID MEASURES

Barrel Part of Syringe

General Advice	No hazards which require special first aid measures.
In case of eye contact	<ul style="list-style-type: none">• Flush eyes with water as a precaution.• Remove contact lenses.• Protect unharmed eye.• Keep eye wide open while rinsing.
In case of skin contact	<ul style="list-style-type: none">• Take off contaminated clothing and shoes immediately.• Wash off with soap and plenty of water.
If inhaled	<ul style="list-style-type: none">• Move to fresh air in case of accidental inhalation of dust or fumes from overheating or combustion.• If symptoms persist, call a physician.
If swallowed	<ul style="list-style-type: none">• Clean mouth with water and drink afterwards plenty of water.• Do not give milk or alcoholic beverages.• Never give anything by mouth to an unconscious person.

Most important symptoms and effects, both acute and delayed

None known.

Protection of first-aiders	No data available
Notes to physician	No data available

Plunger Part of Syringe

In case of eye contact	<ul style="list-style-type: none">• Flush eyes thoroughly with water if irritation occurs.• Seek medical advice.
In case of skin contact	<ul style="list-style-type: none">• Remove contaminated clothes, rinse skin with plenty of water.• Seek medical advice.
If inhaled	<ul style="list-style-type: none">• Remove from exposure to fresh air immediately.• If not breathing, give artificial respiration, refer to medical attention immediately.
If swallowed	<ul style="list-style-type: none">• Never give anything by mouth to an unconscious person.• Seek medical advice immediately.
Notes to physician	Treat symptomatically and supportively.

SECTION 5 FIRE FIGHTING MEASURES

Barrel Part of Syringe

Suitable and Unsuitable Extinguishing Media

Suitable Extinguishing Media	Use extinguishing measures that are appropriate to local circumstances and the surrounding environment.
Unsuitable Extinguishing Media	No data available

Information provided on this document is presented in good faith and believed to be correct based on the best data currently available, Livingstone International makes no representations or warranties, expressed or implied as to the completeness or accuracy of the information. In no event will Livingstone International be liable for any errors or omissions in the information provided herein. Information is supplied upon the condition that any persons or corporate receiving same will make independent determination as to its suitability for their own purposes prior to use, and in no event will Livingstone International be responsible for damages of any nature whatsoever resulting from the use of product or reliance upon information provided. Information is provided on an "as is" basis, no representation or warranties, either expressed or implied of fitness for a particular purpose or of any other nature are made herein with respect to information of the product.

SAFETY DATA SHEET

Product Code: BD328821

PAGE 3 OF 9

Specific Hazards During Firefighting

Hazardous Combustion Products No data available

Specific Extinguishing Methods Standard procedure for chemical fires

Special Protective Equipment for Firefighters

In the event of fire, wear self-contained breathing apparatus.

Plunger Part of Syringe

Suitable Extinguish Media Use water fog, foam, dry chemical or CO₂

Specific Hazards Arising from the Chemical

During a fire, irritating and highly toxic gases may be generated by thermal decomposition or combustion.

Special protective equipment and precautions for fire-fighters

- Use proper personal protective equipment.
- Wear self contained breathing apparatus for fire fighting if necessary.
- Keep people away. Isolate fire and deny unnecessary entry.
- Cool surroundings with water to localize fire zone.

SECTION 6 ACCIDENTAL RELEASE MEASURES

Barrel Part of Syringe

Personal precautions, protective equipment and emergency procedures

Avoid dust formation.

Environmental Precautions No special environmental precautions required.

Methods and materials for containment and cleaning up

- Sweep up and shovel.
- Keep in suitable, closed containers for disposal.

Plunger Part of Syringe

Personal Protection and Protective Equipment

Isolate the hazard area. Use appropriate safety equipment.

Environmental Precautions Do not allow material to contaminate ground water system.

Clean-up and Removal Method Sweep up then place into a suitable container for disposal.

Information provided on this document is presented in good faith and believed to be correct based on the best data currently available, Livingstone International makes no representations or warranties, expressed or implied as to the completeness or accuracy of the information. In no event will Livingstone International be liable for any errors or omissions in the information provided herein. PAGE 4 OF 9

SECTION 7 HANDLING AND STORAGE

Barrel Part of Syringe

Advice on Safe Handling	For personal protection see section 8. No special handling advice required.
Conditions for Safe Storage	Keep container tightly closed in a dry and well ventilated
Materials to Avoid	No special restrictions on storage with other products.
Recommended Storage Temperature	No data available
Storage Period	No data available
Packaging Material	No data available

Plunger Part of Syringe

Precautions for Safe Handling	Wash thoroughly after handling. Avoid contact with eyes, skin, and clothing. Avoid ingestion and inhalation
Conditions for Safe Storage	Store in a cool, dry well-ventilated area. Keep container closed when not in use.

SECTION 8 EXPOSURE CONTROLS/PERSONAL PROTECTION

Barrel Part of Syringe

Components with workplace control parameters

Contains no substances with occupational exposure limit values.

Engineering Measures	No data available
Personal Protective Equipment	
Respiratory Protection	No personal respiratory protective equipment normally required.
Eye Protection	Safety glasses
Hand Protection	Remarks For prolonged or repeated contact use protective gloves.
Skin and Body Protection	Protective suit
Hygiene Measures	General industrial hygiene practice.

Plunger Part of Syringe

Exposure limits of the chemical substance, biological exposure limits and etc

Not applicable

Appropriate Engineering Controls	Ventilation; Good general ventilation should be sufficient for most conditions. Check the recommended threshold exposure limits.

Personal Protective Equipment

Respiratory Protection	Use an approved air-purifying respirator when vapours are generated at increased temperatures or when dust is present.
Eye Protection	Wear safety glasses and chemical goggles.
Hand Protection	Wear gloves with insulation for thermal protection.
Body Protection	Wear approved chemical protective clothes.

SECTION 9

PHYSICAL AND CHEMICAL PROPERTIES

Barrel Part of Syringe

Appearance	Solid form
Melting Point/Range	160°C
Upper/Lower Explosion Limit Solubility(ies)	
Water Solubility	Insoluble
Density	0.9 g/cm ³
Auto-Ignition Temperature	330°C

Plunger Part of Syringe

Appearance	Solid(translucent to white pellet or powder).
Odour	Odourless.
Odour Threshold	Not available.
pH	Not applicable.
Melting Point/Freezing Point	120 ~ 170°C
Initial Boiling Point and Range	Not available.
Flash Point	Not available.
Evaporation Rate	Not applicable.
Flammability(solid, gas)	Not available.
Upper/Lower Flammable or Explosive Limits	Not applicable.
Vapour Pressure	Not applicable.
Solubility	Insoluble in water.
Vapour Density	Not applicable.
Specific Gravity (H2O=1)	0.89 ~ 0.91
Partition Coefficient (n-octanol/water)	Not applicable.
Auto-Ignition Temperature	> 350°C

Information provided on this document is presented in good faith and believed to be correct based on the best data currently available, Livingstone International makes no representations or warranties, expressed or implied as to the completeness or accuracy of the information. In no event will Livingstone International be liable for any errors or omissions in the information provided herein. Information is supplied upon the condition that any persons or corporate receiving same will make independent determination as to its suitability for their own purposes prior to use, and in no event will Livingstone International be responsible for damages of any nature whatsoever resulting from the use of product or reliance upon information provided. Information is provided on an "as is" basis, no representation or warranties, either expressed or implied of fitness for a particular purpose or of any other nature are made herein with respect to information of the product.

PAGE 6 OF 9

Decomposition Temperature Not applicable.
Viscosity Not applicable.
Molecular Weight > 10,000

SECTION 10 STABILITY AND REACTIVITY

Barrel Part of Syringe

Chemical stability and possibility of hazardous reactions

- Stable under recommended storage conditions.
- No decomposition if stored and applied as directed.
- No hazards to be specially mentioned.

Conditions to Avoid No data available

Incompatible Materials No data available

Hazardous Decomposition Products No data available

Plunger Part of Syringe

Chemical Stability Stable under normal temperature and pressure.

Conditions to Avoid Keep away from heat, sparks and flame.

Materials to avoid Strong oxidizing agents

Hazardous Decomposition Products Irritating and toxic fumes and gases, unidentified organic compounds.

SECTION 11 TOXICOLOGICAL INFORMATION

Barrel Part of Syringe

Information On Likely Routes Of Exposure No data available

Health Hazard Information

Acute Toxicity No data available

Skin Corrosion/Irritation According to the classification criteria of the European Union, the product is not considered as being a skin irritant.

Serious Eye Damage/Irritation According to the classification criteria of the European Union, the product is not considered as being an eye irritant.

Respiratory Skin Sensitisation No data available **Reproductive Toxicity** No data available

Germ Cell Mutagenicity No data available **Carcinogenicity** No data available

Information provided on this document is presented in good faith and believed to be correct based on the best data currently available, Livingstone International makes no representations or warranties, expressed or implied as to the completeness or accuracy of the information. In no event will Livingstone International be liable for any errors or omissions in the information provided herein. Information is supplied upon the condition that any persons or corporate receiving same will make independent determination as to its suitability for their own purposes prior to use, and in no event will Livingstone International be responsible for damages of any nature whatsoever resulting from the use of product or reliance upon information provided. Information is provided on an "as is" basis, no representation or warranties, either expressed or implied of fitness for a particular purpose or of any other nature are made herein with respect to information of the product.

STOT - Single Exposure	No data available	Aspiration Toxicity	No data available
STOT - Repeated Exposure	No data available	Further Information	No data available

Plunger Part of Syringe

Information on the likely routes of exposure

Dust inhalation maybe cause cough.

Delayed and immediate effects and also chronic effects from short or long term exposure

Acute Toxicity	- LD50 > 8000 mg/kg(rat)		
Skin Corrosion/Irritation	Not available.	Skin Sensitization	Not available.
Serious Eye Damage/Irritation	Not available.	Carcinogenicity	Not listed in IARC.
Respiratory Sensitization	Not available.	Reproductive Toxicity	Not available.
Germ Cell Mutagenicity	Not listed in IARC.	Aspiration Hazard	Not available.
Specific target organ systemic toxicity(single exposure)	Not available.		
Specific target organ systemic toxicity(repeated exposure)	Not available.		

SECTION 12 ECOLOGICAL INFORMATION

Barrel Part of Syringe

Ecotoxicity	No data available	Mobility in Soil	No data available
Persistence and Degradability	No data available	Other Adverse Effects	No data available
Bioaccumulative Potential	No data available		
Additional Ecological Information	There is no data available for this product.		

Plunger Part of Syringe

Ecotoxicity	No data available	Mobility in Soil	No data available
Persistence and Degradability	No data available	Other Adverse Effects	No data available
Bioaccumulative Potential	No data available		

SECTION 13 DISPOSAL CONSIDERATIONS

Barrel Part of Syringe

Disposal Methods

Information provided on this document is presented in good faith and believed to be correct based on the best data currently available, Livingstone International makes no representations or warranties, expressed or implied as to the completeness or accuracy of the information. In no event will Livingstone International be liable for any errors or omissions in the information provided herein. Information is supplied upon the condition that any persons or corporate receiving same will make independent determination as to its suitability for their own purposes prior to use, and in no event will Livingstone International be responsible for damages of any nature whatsoever resulting from the use of product or reliance upon information provided. Information is provided on an "as is" basis, no representation or warranties, either expressed or implied of fitness for a particular purpose or of any other nature are made herein with respect to information of the product.

PAGE 8 OF 9

Waste From Residues	Offer surplus and non-recyclable solutions to a licensed disposal company.
Contaminated Packaging	Empty remaining contents. Empty containers should be taken to an approved waste handling site for recycling or disposal
Disposal Precautions	Dispose of in accordance with local regulations.
Plunger Part of Syringe	
Disposal Methods	All disposal practices must be in compliance with all applicable federal, state and/or local laws and regulations.
Disposal Precautions	Dispose of waste in accordance with local regulations.

SECTION 14 TRANSPORT INFORMATION

Barrel Part of Syringe

International Regulation			
UNRTG	Not regulated as a dangerous good		
IATA-DGR	Not regulated as a dangerous good		
IMDG-Code	Not regulated as a dangerous good		
UN Number	Not applicable	Packing Group	Not applicable
Proper Shipping Name	Not applicable	Labels	Not applicable
Class	Not applicable	EmS Code Marine	Not applicable
Subsidiary Risk	Not applicable	Pollutant	Not applicable

Transport in Bulk According to Annex II of MARPOL 73/78 and the IBC Code

Not applicable for product as supplied.

National Regulations	Refer to section 15 for specific national regulation.
Special Precautions for the User	Not classified as dangerous in the meaning of transport regulations

Plunger Part of Syringe

UN Number	Not applicable	Packing Group	Not applicable
Proper Shipping Name	Not applicable	Marine Pollutant	Not applicable
Special Precautions for the User	Not applicable	Class	Not applicable

Information provided on this document is presented in good faith and believed to be correct based on the best data currently available, Livingstone International makes no representations or warranties, expressed or implied as to the completeness or accuracy of the information. In no event will Livingstone International be liable for any errors or omissions in the information provided herein. Information is supplied upon the condition that any persons or corporate receiving same will make independent determination as to its suitability for their own purposes prior to use, and in no event will Livingstone International be responsible for damages of any nature whatsoever resulting from the use of product or reliance upon information provided. Information is provided on an "as is" basis, no representation or warranties, either expressed or implied of fitness for a particular purpose or of any other nature are made herein with respect to information of the product.

SECTION 15 REGULATORY INFORMATION

Barrel Part of Syringe

National Regulatory Information

Industrial Safety and Health Act

Harmful Substances Prohibited from Manufacturing	Not relevant
Harmful Substances Required Permission for Manufacture	Not relevant
Controlled Hazardous Substances Not relevant	Not relevant
Controlled Substances Subject to Environment Monitoring	Not relevant
Controlled Substances Subject to Health Examination	Not relevant

Toxic Chemicals Control Act

Observational Chemicals	Not relevant	Toxic Chemicals	Not relevant
Toxic Release Inventory	Not relevant	Restricted Chemicals	Not relevant
Accident Precaution Chemicals	Not relevant	Prohibited Chemicals	Not relevant

Dangerous Substances Safety Management Act

Not Applicable to Dangerous Materials

Wastes Control Act

Industrial waste
 Follow article 13 of the act to dispose the product waste

Other requirements in domestic and other countries

No data available

Plunger Part of Syringe

Korea	Not regulated.
US-OSHA	Not regulated.
US-CERCLA	Not regulated.

SECTION 16 OTHER INFORMATION

Sources of Reference Materials

Globally Harmonized System of classification and labeling of chemicals(GHS), First revised edition, United Nations. IARC(International Agency for Research on Cancer)

Reason for Revision

END OF SDS

Information provided on this document is presented in good faith and believed to be correct based on the best data currently available, Livingstone International makes no representations or warranties, expressed or implied as to the completeness or accuracy of the information.
