SAFETY DATA SHEET

Product Code: MSHVSTK50

PAGE 1 OF 5

SECTION 1 PRODUCT IDENTIFICATION

Product Name Mennen Shave Stick

SECTION 2 HAZARD IDENTIFICATION

Hazard Not classified as hazardous

Classification NON-HAZARDOUS SUBSTANCE.
 NON-DANGEROUS GOODS.
 Hazard classification according to the criteria of NOHSC.
 Dangerous goods classification according to the Australia Dangerous Goods Code.

SECTION 3 COMPOSITION/INFORMATION ON INGREDIENTS

INFORMATION ON COMPOSITION Contains a mixture of additives and water

Ingredients	Name	CAS	Proportion	Hazard Symbol	Risk Phrase
	Soap	Mixture	60 - 100 %		
	Stearic Acid	57-11-4	10 - <30 %		
	Potassium stearate	593-29-3	10 - <30 %		
	Carbon black	1333-86-4	<0.01 %		
	Ingredients determined not to be hazardous	Not required	Balance		

SECTION 4 FIRST AID MEASURES

Inhalation No specific measures usually required. However, If inhaled, remove from contaminated area. If symptoms develop seek medical attention.

Ingestion Do not induce vomiting. Immediately wash mouth out with water. If symptoms develop, seek medical attention.

Skin If irritation develops, discontinue use. Seek medical attention.

Eye If eye contact occurs, hold eyelids apart and flush the eyes continuously with running water. Continue flushing for several minutes until all contaminants are washed out completely. If symptoms develop and persist seek medical attention.

First Aid Facilities Normal washroom facilities.

Advice to Doctor Treat symptomatically.

Other Information For advice in an emergency, contact a Poisons Information Centre (Phone Australia 13 1126; New Zealand 0800 POISON / 0800 764 766) or a doctor at once.

SECTION 5 FIRE FIGHTING MEASURES

Suitable Extinguishing Media Use appropriate fire extinguisher for surrounding environment.

Hazards from Combustion Products Under fire conditions this product may emit toxic and/or irritating fumes.

Specific Hazards Non-combustible solid

Precautions in connection with Fire Fire fighters should wear Self-Contained Breathing Apparatus (SCBA) operated in positive pressure mode and full protective clothing to prevent exposure to vapours or fumes. Water spray may be used to cool down heat-exposed containers.

SECTION 6 ACCIDENTAL RELEASE MEASURES

Emergency Procedures Slippery when spilt. Avoid accidents, clean up immediately. Increase ventilation. Evacuate all unprotected personnel. Wear sufficient respiratory protection and full protective clothing to prevent exposure. Sweep up material avoiding dust generation or dampen spilled material with water to avoid airborne dust, then transfer material to a suitable container. Wash surfaces well with soap and water. Seal all wastes in labelled plastic containers for subsequent recycling or disposal. Dispose of waste according to the applicable local and national regulations. If contamination of sewers or waterways occurs inform the local water and waste management authorities in accordance with local regulations.

SECTION 7 HANDLING AND STORAGE

Precautions for Safe Handling It is essential that all who come into contact with large quantities of this material, maintain high standards of personal hygiene i.e. washing hands prior to eating, drinking, smoking or going to the toilet.

Conditions for Safe Storage Store in a cool, dry place.

Corrosiveness Non-corrosive to metals.

SECTION 7 HANDLING AND STORAGE

National Exposure Standards No exposure value assigned for this specific material by the National Occupational Health and Safety Commission (NOHSC), Australia. However, the available exposure limits for ingredients are listed below:

Issue Date: 23/11/2019
 Last Revision Date: 29/08/2024
 Superseded Date: 23/11/2019
 Version Number: 02

SAFETY DATA SHEET

Product Code: MSHVSTK50

PAGE 3 OF 5

National Occupational Health And Safety Commission (NOHSC), Australia Exposure Standards:

Substance	TWA		STEL		NOTICES
	ppm	mg/m ³	ppm	mg/m ³	
Carbon black	-	3	-	-	-

TWA (Time Weighted Average): The average airborne concentration of a particular substance when calculated over a normal eight-hour working day, for a five-day week.

STEL (Short Term Exposure Limit): The average airborne concentration over a 15 minute period which should not be exceeded at any time during a normal eight-hour workday.

Biological Limit Values

No biological limit allocated.

Engineering Controls

No special engineering controls required. However, under industrial applications, provide sufficient ventilation to keep airborne levels to a minimum. Where excessive dusts, process vapours or mists are generated, the use of respiratory protection, or a local exhaust ventilation system is recommended.

Respiratory Protection

Not required under normal conditions of use.

Industrial Applications: If engineering controls are not effective in controlling airborne exposure then an approved respirator should be used. Reference should be made to Australian/New Zealand Standards AS/NZS 1715, Selection, Use and Maintenance of Respiratory Protective Devices; and AS/NZS 1716, Respiratory Protective Devices, in order to make any necessary changes for individual circumstances.

Eye Protection

Not required under normal conditions of use.

Industrial Applications: Safety glasses with side shields or chemical goggles should be worn. Final choice of appropriate eye/face protection will vary according to individual circumstances. Eye protection devices should conform with Australian/New Zealand Standard AS/NZS 1337 - Eye Protectors for Industrial Applications.

Hand Protection

Not required under normal conditions of use.

Industrial Applications: Wear gloves of impervious material. Final choice of appropriate gloves will vary according to individual circumstances i.e. methods of handling or according to risk assessments undertaken. Reference should be made to AS/NZS 2161.1: Occupational protective gloves - Selection, use and maintenance.

Body Protection

Not required under normal conditions of use.

Industrial Applications: Wear appropriate clothing including chemical resistant apron where clothing is likely to be contaminated. It is advisable that a local supplier of personal protective clothing is consulted regarding the choice of material.

SECTION 9 PHYSICAL/CHEMICAL PROPERTIES

Appearance	Thick green solid
Odour	Not available
Melting Point	Not available
Boiling Point	Not available

Information provided on this document is presented in good faith and believed to be correct based on the best data currently available, Livingstone International makes no representations or warranties, expressed or implied as to the completeness or accuracy of the information. In no event will Livingstone International be liable for any errors or omissions in the information provided herein. Information is supplied upon the condition that any persons or corporate receiving same will make independent determination as to its suitability for their own purposes prior to use, and in no event will Livingstone International be responsible for damages of any nature whatsoever resulting from the use of product or reliance upon information provided. Information is provided on an "as is" basis, no representation or warranties, either expressed or implied of fitness for a particular purpose or of any other nature are made herein with respect to information of the product.

PAGE 4 OF 5

Solubility in Water	Soluble
Specific Gravity	1.00
pH Value	Not available
Vapour Pressure	Not available
Vapour Density (Air=1)	Not available
Flash Point	Not available
Flammability	Non-combustible solid
Auto-Ignition Temperature	Not applicable
Flammable Limits - Lower	Not applicable
Flammable Limits - Upper	Not applicable

SECTION 10 STABILITY AND REACTIVITY

Chemical Stability	Stable under normal conditions of storage and handling.
Incompatible Materials	Strong oxidising agents.
Hazardous Decomposition Products	Thermal decomposition and combustion may produce noxious fumes.
Hazardous Polymerization	Will not occur.

SECTION 11 TOXICOLOGICAL INFORMATION

Toxicology Information	No toxicity data available for this material.
Inhalation	Not likely to cause adverse effects from inhalation.
Ingestion	Ingestion of large quantities may cause irritation to the gastrointestinal system. Symptoms can include nausea, vomiting and diarrhoea.
Skin	May cause irritation in some individuals with sensitive skin.
Eye	May cause irritation in contact with the eyes, including redness, stinging and excessive tearing.
Chronic Effects	Not available

Issue Date: 23/11/2019
Last Revision Date: 29/08/2024
Superseded Date: 23/11/2019

SECTION 12 ECOLOGICAL INFORMATION

Ecotoxicity	No ecological data available for this product.
Persistence / Degradability	Not available
Mobility	Not available
Environ. Protection	Prevent this material entering waterways, drains and sewers.

SECTION 13 DISPOSAL CONSIDERATIONS

Disposal Considerations	The disposal of the spilled or waste material must be done in accordance with applicable local and national regulations.
--------------------------------	--

SECTION 14 TRANSPORT INFORMATION

Transport Information	Road and rail transport: Not classified as Dangerous Goods according to the Australian Code for the Transport of Dangerous Goods by Road and Rail. (7th edition) Marine Transport (IMO/IMDG): Not classified as Dangerous Goods by the criteria of the International Maritime Dangerous Goods Code (IMDG Code) for transport by sea. Air Transport (ICAO/IATA): Not classified as Dangerous Goods by the criteria of the International Air Transport Association (IATA) Dangerous Goods Regulations for transport by air.
------------------------------	--

SECTION 15 REGULATORY INFORMATION

Regulatory Information	Not classified as Hazardous according to criteria of National Occupational Health & Safety Commission (NOHSC), Australia. Not classified as a Scheduled Poison according to the Standard for the Uniform Scheduling of Medicines and Poisons (SUSMP).
Poisons Schedule	Not Scheduled

SECTION 16 OTHER INFORMATION

Reason for Revision:	To bring to date
