SAFETY DATA SHEET

Product Code: STREPHNY16

PAGE 1 OF 8

SECTION 1 PRODUCT IDENTIFICATION

Product name Strepsils Honey And Lemon

Recommended use and Restrictions Symptomatic relief of Sore Throats and Infections of the throat and mouth

SECTION 2 HAZARD IDENTIFICATION

Classification of the substance or mixture Not classified

Signal word : No signal word.

Hazard statements : No known significant effects or critical hazards.

Precautionary statements

General : Read label before use. Keep out of reach of children. If medical advice is needed, have product container or label at hand.

Prevention : Not applicable.

Response : Not applicable.

Storage : Not applicable.

Disposal : Not applicable.

Supplemental label elements Not applicable.

Other hazards which do not result in classification None known.

SECTION 3 COMPOSITION/INFORMATION ON INGREDIENTS

Mixture Contains: Lozenges containing small amounts of antiseptic ingredients (Amylmetacresol 0.6mg / lozenge and 2,4-Dichlorobenzyl alcohol 1.2mg / lozenge), flavourings, colours and weak acid in a Sucrose / Glucose Syrup/Honey lozenge base

Other Non-hazardous ingredients to 100%

Occupational exposure limits, if available, are listed in Section 8

SECTION 4 FIRST AID MEASURES

Eye contact Immediately flush eyes with plenty of water, occasionally lifting the upper and lower eyelids. Check for and remove any contact lenses. Get medical attention if irritation occurs.

Inhalation Remove victim to fresh air and keep at rest in a position comfortable for breathing. Get medical attention if symptoms occur.

Skin contact Flush contaminated skin with plenty of water. Remove contaminated clothing and shoes. Get medical attention if symptoms occur

Issue Date: 24/07/2019
Last Revision Date: N/A
Superseded Date: N/A
Version Number: 01

SAFETY DATA SHEET

Product Code: STREPHNY16

PAGE 2 OF 8

Ingestion	Wash out mouth with water. Remove victim to fresh air and keep at rest in a position comfortable for breathing. If material has been swallowed and the exposed person is conscious, give small quantities of water to drink. Do not induce vomiting unless directed to do so by medical personnel. Get medical attention if symptoms occur
Potential acute health effects	
Eye contact	No known significant effects or critical hazards.
Inhalation	No known significant effects or critical hazards.
Skin contact	No known significant effects or critical hazards.
Ingestion	No known significant effects or critical hazards.
Over-exposure signs/symptoms	
Eye contact	No specific data.
Inhalation	No specific data.
Skin contact	No specific data.
Ingestion	No specific data.
Indication of immediate medical attention and special treatment needed, if necessary	
Notes to physician	Treat symptomatically. Contact poison treatment specialist immediately if large quantities have been ingested or inhaled
Specific treatments	No specific treatment
Protection of first-aiders	No action shall be taken involving any personal risk or without suitable training.
See toxicological information (Section 11)	

SECTION 5 FIRE FIGHTING MEASURES

Extinguishing media	
Suitable extinguishing media	Use an extinguishing agent suitable for the surrounding fire.
Unsuitable extinguishing media	None known.
Specific hazards arising from the chemical	No specific fire or explosion hazard
Hazardous thermal decomposition products	Decomposition products may include the following materials: carbon dioxide carbon monoxide
Special protective actions for fire-fighters	Promptly isolate the scene by removing all persons from the vicinity of the incident if there is a fire. No action shall be taken involving any personal risk or without suitable training
Special protective equipment for fire-fighters	Fire-fighters should wear appropriate protective equipment and self-contained breathing apparatus (SCBA) with a full face-piece operated in positive pressure mode.

SECTION 6 ACCIDENTAL RELEASE MEASURES

Personal precautions, protective equipment and emergency procedures

The content of this SDS is to the best of Livingstone International's knowledge of the product and how to safely handle it in the workplace based on third party information. Livingstone International expressly disclaims that this SDS document is a representation or guarantee of full and complete information for the product. All users should read the SDS and consider the information in the context of how the selected product will be handled and used in the workplace including its use in independent expert. The responsibility for products sold by Livingstone International is subject to its standard Terms and Conditions of Sale (Australia, New Zealand).

Issue Date: 24/07/2019
Last Revision Date: N/A
Superseded Date: N/A
Version Number: 01

SAFETY DATA SHEET

Product Code: STREPHNY16**PAGE 3 OF 8****For non-emergency personnel**

No action shall be taken involving any personal risk or without suitable training. Evacuate surrounding areas. Keep unnecessary and unprotected personnel from entering. Do not touch or walk through spilt material. Put on appropriate personal protective equipment

For emergency responders

If specialised clothing is required to deal with the spillage, take note of any information in Section 8 on suitable and unsuitable materials. See also the information in "For non-emergency personnel".

Environmental precautions

Avoid dispersal of spilt material and runoff and contact with soil, waterways, drains and sewers. Inform the relevant authorities if the product has caused environmental pollution (sewers, waterways, soil or air).

Methods and material for containment and cleaning up**Small spill**

Move containers from spill area. Vacuum or sweep up material and place in a designated, labelled waste container. Dispose of via a licensed waste disposal contractor.

Large spill

Move containers from spill area. Prevent entry into sewers, water courses, basements or confined areas. Vacuum or sweep up material and place in a designated, labelled waste container. Dispose of via a licensed waste disposal contractor. Note: see Section 1 for emergency contact information and Section 13 for waste disposal

See Section 8 for information on appropriate personal protective equipment

See Section 13 for additional waste treatment information

SECTION 7**HANDLING AND STORAGE****Precautions for safe handling****Protective measures**

Put on appropriate personal protective equipment (see Section 8).

Advice on general occupational hygiene

Eating, drinking and smoking should be prohibited in areas where this material is handled, stored and processed. Workers should wash hands and face before eating, drinking and smoking. Remove contaminated clothing and protective equipment before entering eating areas. See also Section 8 for additional information on hygiene measures.

Conditions for safe storage, including any incompatibilities

Do not store above the following temperature: 25°C (77°F). Store in accordance with local regulations. Store in original container protected from direct sunlight in a dry, cool and well-ventilated area, away from incompatible materials (see Section 10) and food and drink. Keep container tightly closed and sealed until ready for use. Containers that have been opened must be carefully resealed and kept upright to prevent leakage. Do not store in unlabelled containers. Use appropriate containment to avoid environmental contamination.

The following requirements are in place for shipping and distribution (they may be different to those on the pack which provide guidance for long term storage by the consumer):

Protect from direct sunlight

Long term average storage temperature should not exceed 25°C. The following excursions are permitted:

60°C – Not permitted

50°C – Not permitted

40°C – Not more than 4 weeks

The excursions are not cumulative

Lozenges will adhere to the blister pack if stored for longer than 4 weeks at 40°C

This product has no low temperature control requirements.

Do not store above the following temperature

25°C

SECTION 8 EXPOSURE CONTROLS/PERSONAL PROTECTION

Control parameters

Australia	Occupational exposure limits	None.
New Zealand	Occupational exposure limits	No exposure standard allocated
	Appropriate engineering controls	Good general ventilation should be sufficient to control worker exposure to airborne contaminants.
	Environmental exposure controls	Emissions from ventilation or work process equipment should be checked to ensure they comply with the requirements of environmental protection legislation. In some cases, fume scrubbers, filters or engineering modifications to the process equipment will be necessary to reduce emissions to acceptable levels.

Individual protection measures

Hygiene measures	Wash hands, forearms and face thoroughly after handling chemical products, before eating, smoking and using the lavatory and at the end of the working period. Appropriate techniques should be used to remove potentially contaminated clothing. Wash contaminated clothing before reusing. Ensure that eyewash stations and safety showers are close to the workstation location
Eye/face protection	Safety eyewear complying with an approved standard should be used when a risk assessment indicates this is necessary to avoid exposure to liquid splashes, mists, gases or dusts. If contact is possible, the following protection should be worn, unless the assessment indicates a higher degree of protection: safety glasses with side-shields
Skin protection	
Hand protection	Chemical-resistant, impervious gloves complying with an approved standard should be worn at all times when handling chemical products if a risk assessment indicates this is necessary
Body protection	Personal protective equipment for the body should be selected based on the task being performed and the risks involved and should be approved by a specialist before handling this product
Other skin protection	Appropriate footwear and any additional skin protection measures should be selected based on the task being performed and the risks involved and should be approved by a specialist before handling this product
Respiratory protection	Based on the hazard and potential for exposure, select a respirator that meets the appropriate standard or certification. Respirators must be used according to a respiratory protection program to ensure proper fitting, training, and other important aspects of use

SECTION 9 PHYSICAL/CHEMICAL PROPERTIES

Physical state	Solid.
Colour	Yellow.
Odour	Distinctive
Odour threshold	Not available.
pH	Not available.

Issue Date: 24/07/2019
Last Revision Date: N/A
Superseded Date: N/A
Version Number: 01

SAFETY DATA SHEET

Product Code: STREPHNY16

PAGE 5 OF 8

Melting point	Not available.
Boiling point	Not available.
Flash point	Not available.
Evaporation rate	Not available.
Flammability (solid, gas)	Not available.
Lower and upper explosive (flammable) limits	Not available.
Vapour pressure	Not available.
Vapour density	Not available.
Relative density	Not available.
Solubility	Partially soluble in the following materials: cold water and hot water
Solubility in water	Not available.
Partition coefficient: noctanol/ water	Not available.
Auto-ignition temperature	Not available.
Decomposition temperature	Not available.
Viscosity	Not available.
Flow time (ISO 2431)	Not available.

SECTION 10 STABILITY AND REACTIVITY

Reactivity	No specific test data related to reactivity available for this product or its ingredients
Chemical stability	The product is stable
Possibility of hazardous reactions	Under normal conditions of storage and use, hazardous reactions will not occur
Conditions to avoid	No specific data.
Incompatible materials	No specific data.
Hazardous decomposition productst	Under normal conditions of storage and use, hazardous decomposition products should not be produced

SECTION 11 TOXICOLOGICAL INFORMATION

Acute toxicity	Based on available data, the classification criteria are not met.
Irritation/Corrosion	
Skin	Based on available data, the classification criteria are not met.
Eyes	Information is based on toxicity test result of a similar product
Respiratory	Based on available data, the classification criteria are not met.
Sensitisation	Based on available data, the classification criteria are not met

Issue Date: 24/07/2019
Last Revision Date: N/A
Superseded Date: N/A
Version Number: 01

SAFETY DATA SHEET

Product Code: STREPHNY16
PAGE 6 OF 8

Mutagenicity	Based on available data, the classification criteria are not met
Carcinogenicity	Based on available data, the classification criteria are not met
Reproductive toxicity	Based on available data, the classification criteria are not met
Teratogenicity	Based on available data, the classification criteria are not met

STOT - single exposure Not available.

STOT - repeated exposure Not available.

Aspiration hazard Not available.

Information on likely routes of exposure Not available.

Potential acute health effects

Eye contact No known significant effects or critical hazards

Inhalation No known significant effects or critical hazards

Skin contact No known significant effects or critical hazards

Ingestion No known significant effects or critical hazards

Symptoms related to the physical, chemical and toxicological characteristics

Eye contact No specific data.

Inhalation No specific data.

Skin contact No specific data.

Ingestion No specific data.

Delayed and immediate effects as well as chronic effects from short and long-term exposure

Short term exposure	Potential immediate effects	Not available.
	Potential delayed effects	Not available.

Long term exposure	Potential immediate effects	Not available.
	Potential delayed effects	Not available.

Potential chronic health effects	Potential immediate effects	Not available.
	Potential delayed effects	Not available.

Potential chronic health effects	Potential immediate effects	Not available.
	Potential delayed effects	Not available.

Potential chronic health effects Not available.

Conclusion/Summary Based on available data, the classification criteria are not met

General No known significant effects or critical hazards

Carcinogenicity No known significant effects or critical hazards

Mutagenicity No known significant effects or critical hazards

Teratogenicity No known significant effects or critical hazards

Developmental effects No known significant effects or critical hazards

Issue Date: 24/07/2019

PAGE 7 OF 8

Fertility effects No known significant effects or critical hazards
Acute toxicity estimates Not available.

SECTION 12 ECOLOGICAL INFORMATION

Toxicity Not available.
Persistence and degradability Not available.
Bioaccumulative potential Not available.
Mobility in soil Not available.
Other adverse effects No known significant effects or critical hazards

SECTION 13 DISPOSAL CONSIDERATIONS

The generation of waste should be avoided or minimised wherever possible. Disposal of this product, solutions and any by-products should at all times comply with the requirements of environmental protection and waste disposal legislation and any regional local authority requirements. Dispose of surplus and nonrecyclable products via a licensed waste disposal contractor. Waste should not be disposed of untreated to the sewer unless fully compliant with the requirements of all authorities with jurisdiction. Waste packaging should be recycled. Incineration or landfill should only be considered when recycling is not feasible. This material and its container must be disposed of in a safe way. Empty containers or liners may retain some product residues. Avoid dispersal of spilt material and runoff and contact with soil, waterways, drains and sewers.

SECTION 14 TRANSPORT INFORMATION

UN Number (ADG, IMDG and IATA) Not regulated
Special precautions for user Transport within user's premises: always transport in closed containers that are upright and secure. Ensure that persons transporting the product know what to do in the event of an accident or spillage

SECTION 15 REGULATORY INFORMATION

Standard Uniform Schedule of Medicine and Poisons Not scheduled
Model Work Health and Safety Regulations - Scheduled Substances No listed substance
Australia Therapeutic Goods Administration (TGA) : AUST R 14975.II
New Zealand Ministry of Health (MoH) New Zealand Approval number TT50 - 2485/2

Issue Date: 24/07/2019
Last Revision Date: N/A
Superseded Date: N/A

SECTION 16 OTHER INFORMATION

Key to abbreviations

ADG = Australian Dangerous Goods
ATE = Acute Toxicity Estimate
BCF = Bioconcentration Factor
GHS = Globally Harmonized System of Classification and Labelling of Chemicals
IATA = International Air Transport Association
IBC = Intermediate Bulk Container
IMDG = International Maritime Dangerous Goods
LogPow = logarithm of the octanol/water partition coefficient
MARPOL = International Convention for the Prevention of Pollution From Ships, 1973 as modified by the Protocol of 1978. ("Marpol" = marine pollution)
NOHSC = National Occupational Health and Safety Commission
SUSMP = Standard Uniform Schedule of Medicine and Poisons
UN = United Nations
